

SHEPHERD

DISTRIBUTION SERVICES

Employer of Choice

Why Shepherd's - 'Background'

Shepherd Distribution Services has been established for over 70 years and is a privately owned business.

The company was originally a full load steel haulier during the 1950's, 60's & 70's but as local steel production tonnage fell during the 1980's the company moved towards a business model offering a groupage service aimed predominantly at local steel stockholders, forging companies and engineers.

Today the company still operates in the groupage service sector and is also part of the Palletline network which enables customers to transport palletised consignments or part vehicle loads across the UK and Ireland cost effectively and on time.
